

A-Level Psychology

Summer Preparation Homework 2021

Introduction

Hello & welcome to A-level psychology. Unlike many of your other subjects Psychology will be completely new to most of you and you may have some misconceptions about it. This booklet aims to give you an introduction that will let you see the kind of things that psychologists study & some of the techniques they use, but also to extend the knowledge of those of you who studied the subject at GCSE. This will hopefully give you an accurate picture of what you will spend the next two years studying if you are accepted on to the course. ***One other thing please remember that psychology is a science, and we will be doing quite a bit of research, maths, statistics (not in this booklet though) but also essay writing about theories and research.***
